THE ICEBERG

When we think about terrorism we often think of the attacks. The attack is the tip of the iceberg.

We don't tend to think of everything that has to happen beforehand or activity that is below the water line. What we mustn't forget is that before an attack, there has to have been a period of days, weeks, months or even years in advance of recruitment, fundraising and radicalisation. These are some of the hidden aspects of terrorism and they can happen anywhere.

If you see or hear something that could be terrorist related call the Police Hotline on:

0800 789 321

If you're concerned about someone in your community please contact your local police force by dialling **101** or if you require urgent police assistance dial 999.

Radicalisation / Extremism

- Radicalised: the process by which a person becomes increasingly extreme in their views, e.g. someone who is an Islamic extremist has been radicalised
- Extremism: Extremism is the opposition (either through speaking or action) of British values which include democracy, the rule of law, individual liberty, and respect and tolerance for different faiths and beliefs. e.g. an extremist might be someone who wants only white people to live in the UK, standing in opposition to democracy and individual liberty.

Danger Signs

Does the group state that it will use 'any means' in the name of its cause?

Is it prepared to use violence or violent protest even just as a last resort?

Does it express negative attitudes towards other groups such as Muslims; Christians; LGBT groups; people from different ethnic groups?

Are its members prepared to engage in illegal activity such as damaging property or sending bomb hoaxes?

Does it engage in activities that may put others at risk of harm?

A user-built Nazi concentration camp in Minecraft

Extremists are using mainstream video games and gaming chat platforms to spread hate, BBC Click has found.

Over three months, researchers found anti-Semitism, racism and homophobia on platforms, including DLive and Odysee, where users stream and chat about games such as Call of Duty and Minecraft.
